

## About Legacy Iron Ore

Legacy Iron Ore Limited (the "Company") is a Western Australian based Exploration Company, focused on iron ore and gold exploration and discovery.

The Company's mission is to increase shareholder wealth through capital growth, created via the discovery, development and operation of profitable mining assets.

The Company was listed on the Australian Securities Exchange on 8 July 2008. Since then, the Company has had a number of iron ore, manganese and gold discoveries which are now undergoing drilling and resource definition.

## Board

**Narendra Kumar Nanda**, Non-Executive Chairman

**Sharon Heng**, Executive Director & Managing Director

**Swaminathan Thiagarajan**, Non-Executive Director

**Subimal Bose**, Non-Executive Director

**Timothy Turner**, Non-Executive Director

**Ben Donovan**, Company Secretary

## Key Projects

Mt Bevan Iron Ore Project

Harnersley Iron Ore Project

Robertson Range Iron Ore and Manganese Project

South Laverton Gold Project

East Kimberley Gold, Base Metals and REE Project

### MT BEVAN IRON ORE PROJECT – DRILLING UPDATE

Legacy Iron Ore Limited ("Legacy Iron") is pleased to announce that phase 3 of the Mount Bevan resource definition drilling programme is well underway with some 30% of drilling completed.

Mt Bevan is a joint venture between Legacy Iron and Hawthorn Resources Limited ("Hawthorn") whereby Legacy Iron is earning a 60% interest in the project by expending a minimum of \$3.5m on exploration.

The Phase 3 drilling program consists of approximately 7,700m of RC and diamond drilling, consisting of essentially infill drilling designed to convert a substantial proportion of the Inferred Resource to Indicated status and provide material for metallurgical test work.

This drilling is targeting a central two kilometre strike length of the 10 kilometre long magnetite resource at the Western BIF target.

Previous drilling allowed the definition of a JORC compliant Inferred Resource of 2.26 billion tonnes of magnetite mineralisation grading 27.6% Fe (15% Fe cut off).

There are currently two RC and one diamond drilling rigs on site at Mt Bevan, with drilling progressing well. It is anticipated that the program will be completed by late June.

Yours Faithfully,

Sharon Heng  
Managing Director

#### Competent Person's Statement:

*The information in this report that relates to Exploration Results, Exploration Targets, Mineral Resources or Ore Reserves is based on information compiled by Steve Shelton who is a member of The Australasian Institute of Geoscientists and a full time employee of Legacy Iron Ore Limited. Mr. Shelton has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Shelton consents to the inclusion in this report of the matters based on his information in the form and the context in which it appears.*
