RESUMPTION OF DRILLING – ANGLO SAXON

Trouser Legs . Anglo Saxon Project
(Hawthorn Resources 70%; Gel Resources 30%)

24 May 2013, Hawthorn Resources Limited advises that following the completion of the equity raising with Feng Hua Mining Investment Holding (HK) Limited and the Consolidation of Shares drilling has been resumed at the Anglo Saxon Project as part of the Company's aggressive exploration and development of its Gold Projects.

The Anglo Saxon infill resource RC drilling program provides for up to 24 holes and is to target the bridged area between the old but closed open pit 1 and the proposed open pit 2, which recorded significant gold intercepts. This has been the focus of the infill drilling.

As the drilling is ongoing, assays and results are not expected till early July.
